Re: **Leading Edge 2001**

On behalf of the Commissioners and the Commission itself, I am writing to thank you for your invaluable contribution to the success last week of the Commission's Leading Edge 2001 conference.

The conference, the fifth in its series, was a great success due in no small part to your substantial efforts. I know how many hours you spent on ensuring that the Conference was bigger and better than ever – and it was!

It is truly amazing how much the Commission's profile is enhanced by the conference, and how little by way of resources we have to put it on. Without your efforts, and those of your colleagues, it simply could not have happened.

Again, thank you for your personal contribution to a most important aspect of the Commission's outreach and education mandate.

Frawley
