

## Memo

Date: November 8, 2001

To: Therese Gregorio, Communications Officer

From: Richard Murzin, Manager, Communications

RE: Leading Edge 2001

---

Thanks so much for your excellent work for the Leading Edge 2001 conference.

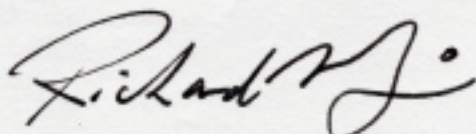

There is every indication that this was the best conference yet and I think that this is in a large part due to all the things you did to help. Everyone really enjoyed the reception, especially as a result of your work securing the sponsor-suppliers.

I particularly appreciate the way you pitched in when we were down to the wire with the conference kits.

On site, you did a great job to make our guests feel at home and to give them value for their money. You always present such a friendly, professional impression on behalf of our organization.

Extra thanks to you for your fine work preparing the *Trees 2000* guidebook in consultation with the POWER citizens group. It is a far better product now. You have ensured that it will be a classic in the realm of environmental restoration for many years to come.

Again, thank you and congratulations.

C: Mark Frawley Lynn Sterritt
