

February 12, 2009

To Whom It May Concern:

This letter will certify that Therese Gregorio was employed with Mechdyne Corporation, St. Jacob's office, from November 2004 to February 2009. During that time, she held the position of Marketing Coordinator.

Therese was responsible for the development of electronic and print communications for Mechdyne Corporation and its divisions. Most recently, she was involved in the re-branding of the company from three separate divisions (Mechdyne, Fakespace and VRCO) to one merged identity under the Mechdyne brand name. For this transition, she had to create a single website, new sales collateral and supporting materials. She contributed to the development of regular electronic newsletters and trade show materials.

Therese has a good design sense and asks good questions in preparation of new materials. We wish her well in her future.

Sincerely,

Jeffrey Brum  
Vice President, Marketing and Business Development  
Mechdyne Corporation
