

## High Performance Connectivity Solutions that Enhance Business Value

Connect Tech Inc. delivers high performance connectivity solutions for embedded and industrial applications. For 25 years, Connect Tech has built a solid reputation for expertise in providing professional design services, delivering unsurpassed technical support, and developing innovative products.

### Professional Design Services

Connect Tech is dedicated to delivering the right solution to meet your unique requirements. From new product development to providing top-notch technical support, you can count on us for product quality, expert advice and services that will enhance your business value. We offer expertise in:

- ✓ Project Consulting and Management
- ✓ Hardware and Software Development
- ✓ FPGA Design
- ✓ Technical Support
- ✓ Computing Platforms
- ✓ Operating Systems
- ✓ Design Consulting

### Unsurpassed Technical Support

Connect Tech upholds its reputation for providing exceptional customer service and support. Our highly trained technical support team is dedicated, knowledgeable and experienced. They are up to date on the latest in hardware and software technologies, and have thorough understanding of all Connect Tech products to ensure prompt service and minimize workflow interruptions.

### Our Markets and Capabilities

Customers worldwide realize the benefits of using Connect Tech's products and services. Our solutions enable rapid proof-of-concept and deployment to help to improve workflow process, increase efficiency and reduce the time to market. Below are some examples of how our wide range of embedded solutions can be adapted to many applications.

### Innovative Products for Simple to Complex Applications

Connect Tech products include commercial off-the-shelf (COTS) solutions for PCI, PCI Express, PC/104, PC/104-Plus, PCI/104-Express, CompactPCI, ISA, FeaturePak, Qseven and Ethernet:

- ✓ FPGA & Digital I/O
- ✓ CPU and SBC Boards
- ✓ CAN Controller Cards
- ✓ Solid State Drives
- ✓ Ethernet-to-serial devices
- ✓ Wireless Radio Modems
- ✓ Multi-port serial cards

Our products are installed in a wide range of operating system environments supported by CTI, and accompanied by a Lifetime Warranty and free Technical Support.

*Connect Tech Inc. is ISO 9001:2000 certified.*

### Modified COTS Solutions

*Solutions for minor to large-scale modifications*

Connect Tech offers Modified COTS solutions to create an exact technology fit, shorten the design cycle, and reduce development costs.

#### Automation

- ✓ Integration solutions for automation systems.

#### Government

- ✓ Advanced access control solutions for high security technologies.

#### Point-of-Sale

- ✓ Sophisticated and comprehensive point-of-sale solutions for complete retail operations.

#### Energy

- ✓ Wind power solutions for clean power generation.
- ✓ Oilfield solutions for critical monitoring and accurate maintenance of sensitive equipment.

#### Manufacturing

- ✓ State-of-the-art communication solutions for manufacturing control systems.

#### Transportation

- ✓ Intelligent transportation solutions to enable communication of transportation devices for land, air and sea.

#### Gaming

- ✓ High-performance transaction processing solutions for lottery system operations.

#### Medical

- ✓ Innovative medical solutions such as the enhancement of an anesthesia ventilation system.
